1	While I found it useful, I also found it to be not well thought out prior to its launch I can see many issues arising from it Maybe in the very long term it will be a useful tool but not convinced at the moment	12/10/2015 10:50 AM
2	Potential for filling the gap for some people and leaves the choice and control with the person accessing. I was interested to hear the concerns raised and acknowledge the potential vulnerability of people accessing however there are many situations already where a carer does not behave appropriately even though employed by organisations with robust HR processes	12/9/2015 11:42 AM
3	A lot of unknowns about the service, Chris gave the impression of being poorly prepared.	12/8/2015 4:45 PM
4	There are still many gaps in this provision and all risks factors have not been mitigated.	12/8/2015 1:54 PM
5	Shame it is not funded for older persons	12/8/2015 1:30 PM
6	still some unanswered questions around role of NASC in this and also gap in service availability for clients with no internet/computer ability	12/8/2015 1:14 PM

2	Not particularly helpful and appeared vague.	12/8/2015 4:45 PM

4	I thought there was some negativity from presenter to recent changes within her organisation.	12/8/2015 1:54 PM
5	Information was good but presentation of it did not flow well and lack of ability to directly answer some of the questions raised	12/8/2015 1:14 PM

1	I was pleased to hear the question of peer review and escalation raised. There does seem to be many steps in approval and one would have to ask why Helenes role sounds interesting and I hope she is able to gain an overview and coordination of all the different things happening at the moment so firstly they make sense and secondly they actually do link into each other and the overall direction of DSS	12/10/2015 10:50 AM

1	I hope the executive take on board the request from DSS break out group to commission a consultant to prepare a case for a better and more robust contract remuneration for our staff	12/10/2015 10:50 AM
2	Great to get a view of some of the things happening in the wider sector as well as network and share inforamtion from a NASC perspectived	12/9/2015 11:42 AM
3	I am fed up about the DSS NASC Managers being given information which is also pertinent to HOP NASC Managers. 7 years later on I feel that still the managers of the over 65 years NASC's are excluded from information which is important to them.	12/8/2015 1:21 PM
