

Susan Bowden

Having been a member of NASCA for around 6 1/2 years and on the executive for the last 3 years, I would like to remain involved as a voice of Older Persons' NASC services, to allow us to further build on the work under way to establish consistency across services, and to further enhance our increasing relationship with key external agencies.

The highlights of my involvement with the executive have been co-coordinating the NASCA Forum in 2013, and again for 2015, and developing increasingly strong relationships with various key personal at DHB Shared Services, the National Health Board and Sector Operations. While there is still a long way to go, the gap between NASC's and these agencies is gradually reducing.

I am a registered nurse with 30 years of experience across a range of primary and secondary settings, with the last 7 as manager of the Hutt Valley Service Coordination Centre.
